

Continuing Education Adjunct Faculty (Web Design I: HTML & CSS)

Moore College of Art & Design's Continuing Education department seeks adjunct faculty to Web Design I: HTML & CSS for adult learners on Wednesdays from 6:30pm to 9:30pm. This position runs from January 25th, 2021 through April 1st, 2021.

Instructors will work closely with Continuing Education staff, delivering an art-based curriculum in their area of expertise in a timely and organized manner. Instructors inspire and guide students in creating individual and collaborative works of art. Students of this program may enroll in individual courses according to their interests or complete eight required courses in one field of study to earn the certificate.

Successful candidates for this position are creative, organized individuals. They are dedicated to their craft and have demonstrated ability as incredible instructors with a history of engaging students. Applicants for this position will have an undergraduate, graduate, teaching certification, and/or equivalent professional experience in one of the listed areas of study.

Requirements:

- A terminal degree or equivalent combination of education and professional/artistic experience, some adult or college-level teaching experience, and evidence of professional activity is required
- Excellent oral, written, and interpersonal communication skills
- Ability to learn and use the Moodle learning platform on a regular basis
- Punctuality and dependability for class schedules is necessary
- Willingness to be flexible with class teaching schedules
- Knowledge of and ability to teach students about industry standards within your specialization

Course Description:

Web Design I introduces best practices in web and user interface design as well as HTML (HyperText Mark-Up Language), CSS (Cascading Style Sheets) and related coding languages that provide the foundation for building web sites. Instruction includes the following topics: user experience design, design criticism, grid systems, typography for the web, and technical trouble-shooting. At the end of the course, students will have generated a site that is based on current professional practices in web design. *Prerequisite: Digital Imaging with Photoshop or equivalent knowledge.*

Please send resume, cover letter, and sample syllabus to ce@moore.edu with a subject line that includes the name of the course you are interested in teaching.
